"I have known Simon Bradley for at least 10 years during which time he has provided garden maintenance services and general horticultural advice to me on a regular basis. I have always found him to be extremely hard working, reliable and responsible. He has good all-round knowledge and experience and has a network of other specialists he can call on if necessary. He listens carefully to his brief but will also make recommendations if he thinks a better outcome is possible. He works efficiently to a high standard and I have referred him successfully to my neighbours. I would have no hesitation in recommending him to others."

"We were very fortunate that Simon agreed to look at 'sorting out our garden'. He came at a time that suited us and took us through what needed doing now and what should wait for the season to change. We needed a major overhaul but Simon took time to explain why we should keep some of the plants as they just needed careful pruning rather than replacement. He saved our Red Robin, which we thought was dead!

When he worked, he was clean and tidy throughout and continued, even through torrential rain, to get the job done. He is thorough too, and even popped back to check the results of his labour. We were really pleased and will be getting him to come back for the spring tidy up, with confidence that he will get our garden ready for a beautiful year ahead. We would highly recommend Simon."

*"We cannot honestly find fault with, or suggest improvements to, any aspect of the service. Initial response to enquiry was same day, initial appointment was at our earliest opportunity, and required work was carried out soon afterwards. You were helpful and informative at the initial appointment, listening well to make sure you understood our requirements, and unostentatiously demonstrating your knowledge whilst communicating your passion. On the day you carried out the work, you texted to let us know you were on your way and might be a little late because of traffic, and were very responsive to our last-minute changes and clarifications. You carried out an immense amount in a day and still managed to leave the garden in a very tidy state."*
